A political administration that will reduce the per capita of the interest on the public debt from \$4.29 in 1865, to 95 cents in 1883, is not an administration that will go out of power.

The democrats seem very anxious that the republicans shall nominate a colored man for vice president. If they have so much feeling on the subject they had better nominate one themselves.

A republican can not help but admire the spirit of the negro church in Virginia which voted that any member aiding the democratic party by his vote shall be suspended for the term of five years. A negrowho would vote the democratic ticket would not only insult his race, but create grave doubts in regard to the genuineness of his religion.

McSteen was hanged at Pittsburg on Thursday for the murder of his wife one year ago last June. The telegraph did not fail to bring the old story, that the doomed man "retired early, slept soundly, rose early, and ate a hearty breakfast." It would be something new to hear of a man who was to be hanged who did't "sleep well and have a goon appetite" just before he was launched into eternity.

When the Hon. Andrew Shuman, editor of the Chicago Journal, went on the Villard excursion, he took some notes, and this is what he says about Wisconsin: "The Wisconsin region traversed by the Northwestern and the St. Paul railways is of so picturesque and interesting a character that we wonder that Chicago people do not make more of it. It is a combination of wooded hills, valleys, lakes. rivers, fine farms and beautiful villages, such as is not seen in this country outside of New England or the far west-Devil's Lake alone, without its romantic sarroundings, is a very gem of summer oveliness."

The State Journal says that for the

first time in the history of the state, the trust funds are all out and earning an iucome in favor of the several institutions of the state. The table here given shows that the finances of the state are in excellent condition.

Mr. Edgar L. Wakeman, of Chicago, for a long time connected with the Louisville Courier-Journal, has made all necessary arrangements to issue a weekly literary journal, the first number to be issued in Chicago, on Christmas Day, will Ιt be protentious literary paper published in this country since the days or the Home Journal, when under the editorial management of N. P. Willis. The United States needs such a journal especially the west, and Chicago, is the place for it, and no better man than Mr. Wakeman could be found for its editorial manager. The best writers in this country have been engaged to contribute to its columns. It will be called "The Current." and we understand that advertising and subscriptions to the amount of \$60,-000 have been secured, and boside this, there is a reserve cash capital of from \$75,000 to \$100,000 in the bank before the first number of the journal is issued.

The Philadelphia Times calls attention to the very pleasant fact that "late copies of the North China Herald, published at Shanghai, prints articles written at Laramie City, Wyoming, about the advantages of stock-raising on the Laramie, Plains. It is a good thing to let the Celestials know what a country this is, oven if we will not allow them to come in and view the land for themselves and take possession. And when live articles written to Laramie City on the 9th of July get to Shanghai and are published there in good English type by August 31 and find their way back to Philadelphia by the end of September, it is a warning to all men that it does not now take as long for a shot to be heard round the world as it did in the good old days at Bunker Hill?

This is being done by a people more despised by the United States government than the worst of barbarians on the face of the earth. It does not only prohibit immigration to this country beyond a certain number per vessel, but it has gone so far even as to absolutely prohibit a certain party of Chinese to pass through the United States while on land. The day may come some time & Baker.

when the United States will count the friendship of the Celestials.

The quarrels among the democrats in Ohio has constrained the New York World, the official organ of the democratic party in that city, to put in a word which might possibly have some influence in driving dissentions from the ranks of the party in that state. There is nothing that will cheer up the democracy more than the strong hope of securing fat offices, and therefore to show the Ohio democrats what the New York democrats have got by success in carrying the city, the World says: -

The democrats of New York send greeting to their brethren in Ohio. The city of New York has a democratic majority of say from 60,000 to 70,000 votes. It spends on an average about \$30,000,000 on its municipal government. It has sheriff, county clork and register, whose fees amount to the comfortable sum (estimated, for t is difficult to get at the exact figures) of from \$50,000 to \$120,000 a year each. It has a large number of heads of departments receiving from \$4,000 to \$12,000 annually. It has in addiion an army of well-paid autordinates, and a vast amount of labor patronage. And it has a liberal supply of public spirited and patriotic citizens who are willing to fill the offices and levote their abilities to the public service.

There is a good deal of sarcasm in this paragraph which gives some bold truths concerning the management of the city of New York by the Comocratic party. While the World is democratio it was bold enough to paint things just as they are in that city under democratic rule. Democratic success leads to that kind of gover nment.

THIBAUDIN AND THE CABINET. LONDON, Oct. 5. - The Paris corespondent

of the Times says: It is now positively known that illness was not the cause of the absence of General Thibaudin, Minister of War, from the reception given King Alfonso at the Palaco Elysee on Sunday. He voluntarily and ostentatiously held aloof from the banquet, so that the glaring gap occasioned by his absence had to be filled by an ad interim Minister of War. Prime Minister Ferry then thought himself bound to inform President Grevy of the deplorable effect of Thibaudin's conduct in political circles and upon European opinion. Ferry, who is backed by all the Ministers, declared that General Mil-Aministers, deciared that General All-lot, will never, with his consent, be-come Chief of the General Staff, as the whole army acknowledges that he is unfit for the post. Grevy shares in this opinion, and if Thibaudin resigns the War portfolio on this quaetion; the President will not back him. It is certain Thibaudin has resolved not to resign. The question will not be not to resign. The question will not be settled until the Chamber of Deputies meets. THE APOLOGY TO KING ALFONSO.

AN OFFICIAL INQUIRY ORDERED. PARIS, Oct. 5.—The Cabinet discussed the incidents attendant upon the visit of King Alfonso and ordered that an official Investigation should be made, with a view to ascertaining the authors of the disturbances and taking measures for their punishment. It is thought that public opinion in Europe is reducing the maneuvers of the fanatics who insulted the King of Spain to their true limits, and that no international complications will be likely to occur. It was, however, resolved by the Cabinet that no press prosecution can be commenced, as the Spanish Minister has not formally de lounced the newspaper attacks.

A QUESTIONABLE VICTORY.

Gould's Triumph in the Hatch-Williams

NEW YORK, Oct. 5 .- The decision of the Court of Appeals in the Hatch-Williams sult against the Western Union Company is the prevailing discussion on Wallstreet. Mr. Sylvester II. Kneeland said: "I have no personal interest in the matter, but I regard the decision as one of the worst ever made. It will ruin Wall street. It is as bad for the stockholder as it is for business men in general. Mark my words, it is Jay Gould's Waterloo. The decision destroys all confidence in the value and permanency of securities. Why, as it is now, the Western Union can buy the American Union and issue its own stock for it. Then Yanderbilt can buy Rochester & Pittsburgh and issue New York Central stock for it, and Gould can buy up little roads along the line of the Missouri Pacific and issue the stock of that company to coverit It unsettles all securities; it resolves everything into a question of the honesty of the directors and managers of the corporations, and the pubmanagers or the corporations, and the public can judge for themselves what that amounts to. A man is a fool to have anything to do with Wall street under such a decision. Its effect is to drive men from the street. Why, one man owning 13,000 shares of stock said to me that in view of this decision has should easil over share of

this decision he should sell every share of his holding." Mr. Henry Clews said that the decision, while all along anticipated by Mr. Gould, was a surprise to the street. He did not think the decision would help the stock. "The decision throws discredit on all securities," said Mr. Clews. "It opens the door for unlimited expansion of the company, so that while to-day a man may own \$10,000 In a capital stock of \$1,000,000, next week he will be surprised to find himself the owner of only \$1,000 in a capital stock of \$2,000,000. This uncertainty is what tends to bring our securities into discredit abroad. In England such an expansion of stock would be unlawful and criminal. If the Western Union had accepted the adverse decision of the Superior Court it would have been beiter for the stock. In order to bring down the capital to the original volume it would have been necessary to bring in the illegal issue, and this would have created a market for the stock which would have been beneficial to it and to the whole list of securities."

### ROASTED ALIVE BY NEGROES.

1 Gambler Rofuses to Surrender His Win-nings, and Meets a Terrible Fate.

NEW ORLEANS, Oct. 5 .- A murder, accompanied with most horrible circumstances, occurred at Provincial, in Nachioches Parish. A party of negro section hands on the New Orleans Pacific Railroad and Ned Bradfield sat down to a game of eards. Luck was in favor of Bradfield, who succeeded during the progress of the game in winning all the monoy of the other game-sters. The losers, inconsed at their losses, became violent in their demonstrations ngainst Bradfield, and Insisted upon his re-turning the money he had won. He refused, and then an attempt was made to take it from him. He resisted violently, and so angored his assaliants that in their rage they threw the unlucky winner upon a log-fire, and held him down, over the blaze, an assailant holding him by each leg and arm. Bradfield, in his agony, managed to wrough himself from the grasp, of the in-furiated negroes, but not until he was terribly burned, his hair and scalp, one hand and the other arm being completely burned away. In this mutilated condition he managed to walk several miles in search of assistance Remedies were applied, but the man died in great agony.

# CONGRESS.

An Interesting Dispatch Detailing Some of the Leading Questions to Be Considered.

A Prediction That the Session Will Continue Into the Midsubimer Days.

### Work for Congressmen.

THE COLUNG NATIONAL LEGISLATURE. CICCINATI, Oct. 5.—The Enquirer's Washington special says: There is reason to believe that the first session of the Forty-eighth Congress will extend into the midsummer days. The legislation of the session promises to be important. It will involve, doubtless, a sturdy attempt to reopen the tariff; a persistent fight to compel delinquent land-grant corporations to follow out to the letter the mandate of their charters or forfelt them; and an effort to get a further large appropriation for the Missis-

The commanding feature of the session, doubtless, will be the effort which will be made, regardless of party lines, to abolish the internal revenue system. On the one handert will be directed by Judge Kelley, and on the other hand by Mr. Randall. Kelley, since his visit to Europe, writes that he is more than over convinced that the internal revenue system should go, and Randall was fully committed to this position, an year ago. The Idis-filling interest of the West and Kentucky will, no doubt, again ask Congress for relief to enable it to ride over its imancial straits, brought on by the over 1st maneut of four years ago. It is understood the trade is united on a bill to extend the bonded period for two years on all goods in bond on and after the passage of the bill. There is no reason to believe that the internal revenue can be wiped out at the next session, and the end will be that after a good deal of agtation theirill will slumber for future use at the succeeding session.

If there is no tariff reduction there is the probability there will be no future diminution of taxes. If the tobacco men were united they could doubtless have the tobacco tax wiped out; but the trade does not seek it. The sentiment is, to let the trade stay where it is, without further derimental agitation, until it is a certainty that Congress brought on by the over-production of four

where it is, without further detrimental agration, until it is a certainty that Congress is ready to do away with it.

It may be that, owing to the rapid accumulation of money in the Treasury and the disposition of the Government to call in all the bonds over which it has the option, some measure will be pussed which will enable National banking associations to continue to organize. With the wiping-out of the three-per-cent bonds there will be no available securities upon which to bottom National Bank circulation, because of the high premium on the outstanding fours, four-and-ahalfs and sixes. In what shape a bill to meet this exigency will be presented is of course yet a problem.

ourse yet a problem.

The Forth-seventh Congress having reduced letter postage, given the people the postal notes and reduced the price of moneyorders, there is no probability of any legislation looking to a further lation in this direction looking to a further reduction. There will be a movement, led by Senator Edmunds, to establish a postultelegraph system, but, as it is a colossal undertaking, it will hardly get further than the point of incubation.

As to investigations, there is a likelihood there will be one or two. will be one or two.

# A BATTLE WITH BANDITS.

Two Famous Arizona Stago Robbers Shot by a Sheriff's Posse-One Killed. Tucson, A. T., Oct. 5.—Sheriff Paul, of this place, having obtained a clew to Charles Hensley and Jack Elmer, the remaining Riverside stage robbers, Super-Intendent Bean, of the Southern Pacific, placed an engine at his disposal. Rank and a posse went to a point in Cochise County, where horses were obtained, and gave immediate pursuit. They came upon the robbers near Percy's ranch, twelve filles north of Wildow, Wednesday night. Jack Elmer, alias 'Red Jack,' was riddled with bullets, and foil dead on the spot. Hensley was wounded severely, but excepted to the mountains. The robbers fitturned the fire, doing no further damage than killing Sheriff Pani's horse from under him and wounding one of the posses slightly. Six well-armed men continued the pursuit of Hensley. Night coining on, he was not found until this morning, when his remains were found where he had crawled in a gulch. The robbers leave a record behind saying they had had a very hard time. They were without food from two to five days. They had determined to fight to the last, which they did, as Hensley kept firing as long as he had strength to load and shoot. where horses were obtained,

# Important Decision Against Arkansas.

LITTLE ROCK, Ark., Oct. 5.—In 1809 bonds to the amount of \$280,000 were issued by the State to assist in the construction of the Little Rock & Fort Smith and Little Rock & Mississippi Railroad companies. In June last a number of the stockholders brought suit in the United States Circuit brought suit in the United States Circuit Court to decide the question whether the State or the railroads were responsible for the bonds. A previous decision of Judge McCray had decided the railroads responsible, but Justice Miller's decision is to the effect that the bonds are not a lien on the roads. The total bonds issued to all the railroads amount to \$5,500,000, nearly half of the State bonds, and all are affected by this decision.

## A Train Fired into.

ADRIAN, Mich., Oct. 5.-As the Lake Shore train which left Chicago at 4:17 was entering the city limits, it was fired upon by some concealed scoundrels. Three windows in the smoking-car were broken and three passengers had their faces budly-cut by fragments of glass. Ai M. Passoe, of Buffelo, and J. N. Lush, of Chicago, two of the wounded, are here at the Lawrence House. The third went on to Toledo.

# A Passenger Train Wrecked.

BUFFALO, N. Y., Oct. 5.-A passenger train from Eractord, on the Erie Road, was wrecked near Tarport yesterday through a spreading rail. The train consisted of two spreading rall. The train consisted of two baggage cars and two coaches, the latter being illied with passengers who were on their way to Chicago. The passengers were all thrown into a ditch, but luckly escaped fatal injury. To add to the confusion a coal train ran into the wieck, ditching one car. A Falal Misiake.

VINCENNES, Ind., Oct. 5.—Mrs. John Wellman, of Allison, Ill., by mistake put ersenic fastead of soda in a batch of light breed, and a whole family of six have been roisoned. Mrs. Wellman cannot recover.

-312 -Many persons who seemingly have con-sumption have perfectly sound lungs, and their distress originates altogether from disordered kidneys and liver. Now there are thousands of remedies that will relieve kidney and liver diseases, but there is only one that there is only one that can be depended upon for effecting a permanent cure, and that is Brown's TronBitters. Its officacy has been satisfactorily proven in thousands of instances after all other remedies failed.

Mr. Wm. Schutte, Keil, Wis., says: Co.

—His Bratal Orime.

Pritishungu, Pa., Oct. 5.—About two hundred persons witnessed the execution of James McSteen, which took place in the county jail yard yesterday morning. Me-Steen slept soundly all of Wednesday night, arising at five o'clock in the morning, when, after a careful tollet, he ate a hearty breakfast. Later on he was visitbreakfast. Later on he was visited by two Sisters of Mercy and his spiritual adviser, Father Ward. None of his relatives put in an appearance. At eleven o'clock he left his cell for the scaffold, attended by Father Ward and the Sherii. He walked erect, and askended the scaffold with a firm step. When asked if he had anything to say, he replied, "No." The cap was then placed over his head and his hands were tied. At 11.05 the drop was sprung, and in the fall his neck was broken. In eight minutes he was pronounced dead. nounced dead.

nounced dead.

The crime for which he suffered the highest penalty of the law was uxorcide. On the evening of June 9, 1882, he sent his little boy out of the house on some pretense, and when the little fellow returned he found his mother lying on the floor with her skull crushed in and a bloody ax on the floor beside her. His father had flown, but was arrested the same night. When the trial came up it was clearly shown that he had committed the deed, and he was accordingly convicted. ingly convicted.

## IN LABOR'S BEHALF.

The Missouri Federation of Labor Organ-inations Pass Reformatory Resolu-

tions. Sr. Louis, Mo., Oct. 5.-The State Federation of Trade and Labor Organizations met, with the President, R. W. Saur, in the chair. A number of resolutions, some referring to concerted political action by labor organizations in the State and throughout the country, were received and referred to their country, were received and referred to their respective committees. The draft of a bill to be presented to the next State Legislature regarding the products of convict labor was adopted. It provides that all articles manufactured by convicts shall be plainly stamped as such, and violations of the law be visited by penalties on sellers of such goods. A resolution was adopted recommending to the Legislature the passage of an act prohibiting corporations within the of an act prohibiting corporations within the State, under penalties, from demanding of their employes that they sign away their their terms of their employers. right to organize or join any organization calculated to promote their interests and better their condition by honorable means.

### Low Interest Bonds.

Washington, Oct. 5.—Secretary Folger will, it is said, recommend to Congress the feasibility of its providing a new, low-interest bond, to be used by National banks to secure their circulation. The three per cents now used are being rapidly called in and soon will not be available. The other and soon will not be available. The other bonds are too high to be purchased for this purpose. The very existence of the National banks is threatened if some relief is not adopted. Secretary Folger has not made up his mind as to the rate to recommend, whether it shall be two or two-and-a-half per cent. per cent.

The Yellow Fever. SAN FRANCISCO, Oct. 5.—One of the yellow fever patients lying aboard the steamer Newburg died Thursday. The corpse will be hermetically scaled and buried outside the city limits. Twenty-six deaths are re-ported from Hermosillo within two days. Interior towns in Mexico are being swept by

BUFFALO, N. Y., Oct. 5 .- A meeting of representatives of the freight interests of all the roads leading west from Buffalo was held at the office of General Freight Agent W. A. Perry, of the Michigan Central, for the purpose of fixing coal rates to Western points. Representatives from all roads leadpoints. Representatives from all reads lead-ing West were present. The tariff was re-vised and the rates advanced to most points on the basis of \$2 per gross ton on hard coal to Chicago, to take effect November 1. A resolution was adopted that no rebates or concessions be allowed on coal shipped and billed on the revised tariff on representations that may be made by shippers and others that orders had been taken and sales made on the basis of the rates in force prior to November 1.

Virginia "Red Mon" [Sentenced.

WHEELING, W. Va., Oct. 5 .- The excitement in the vicinity of Phillippl and Clarksburg over the exposure of the "red men" continues. 'Kittles, the man who confessed, pleaded guilty this morning on an "omnibus" charge, and was sent need to imprisonment for nine years and four months. He took his sentence coolly. Albert Price was sentenced to ten years. He was a promiser of the promise o nent lawyer and Sunday-school teacher. As a result of Kittle's confession, the officers have arrested Jacob I. Hoffman, ex-County Treasurer, and he is in custody at Clarksburg. Other arcests will follow. It is said the gang numbers at least one hun-

DETROIT, Mich., Oct. 5 .- Correspondents who have canvassed 746 leading Democrats of Michigan, representing all parts of the State, are reported in the Detroit News at length. The figures, boiled down, show the following proferences for President in 1884. Democrats interviewed, 746:

Choice for President—Samuel J. Tilden, 285; Benjamin F. Butler, 95; Winfield S. Hancock, 73; Tiomas A. Hendricks, 41; William S. Holman, 36; Thomas F. Bayard, 35; Joseph E. McDonald, 28; Allen, G. Thurman, 23; Grover S. Cleveland, 5; Scattering, 59; No choice, 67.

Who Committed the Crime? PHILADELPHIA, Oct. 5 .- Thomas Palin, a grocer at Tenth and Buttonwood streets. was found on West Logan Square with a bullet in his brain, and near by him was a revolver with an empty chamber. The police are in doubt whether Palin committed spicioe or was murdered. He had neither family or financial difficulties, so far as is known.

Poitland, Me., May 11, 1889, writes:

"I have been troubled for a good many year with inflammation of the bladder, dating as far back as during the time I was in the army. I suffered with dull, heavy pains in the back and Ridneys too intense for me to describe, and tried several remedies that were recommended, and was examined by one of our best physicians, who pronounced it inflammation of the bladder; and I went to the hospital for treatment, but all medicine and treatment had seemed to fail. I was recommended to try flunt's Remedy, as it had been used in several such cases here in Portland and vicinity. I pur chased a bottle at Smith's drugstore here, and found after using the first bottle that it relieved me greatly, and after using several bottles found that it did me more good than all other medicines and treatment I have received combined. And to add to my good opinion o Hunt's Remedy, I beg to state in closing tha my wife has been for a long time troubled with a weakness and inflammation of the bladder, with a complication of other diseases psculiar to women. After using only two bottlesshe has been completely cured; and 1

can say that my wife is loud in praise of this wonderful medicine, and I would highly recommend it to all who are suffering from kidney diseases or diseases of the bladder."

PORTLAND, Mc., May 11, 18 8. I hereby certify that I know the facts of the sickness of Mrs. E. K. Keath, and that they are correctly stated in the foregoing certificate, and there one was accomplished by the use of Hunt's Remedy.

THE PLAYFUL PRANES OF "OLD FAITHFUL," THE NOBLEST HOT SPRINGS OF THEM

Yellowstone Cor. Inter Ocean. Arriving high noon we are just in time for dinner. When just fairly interested in this dissipation the entire table is panic stricken with a yell, "There she goes." To see a crowd start out of a railroad dining room in response to the cry of "all aboard," just as the soup was served, was nothing in comparison to the present occasion. Every parison to the present occasion. Every one jumped for the outside of the tent as though his life depended upon it. The industrious German editor of noble descent who was eating with his knife came near severing the lateral muscles of his mouth in the excitement; and the earth conspired to open and tilt forward the chair of his son to such a degree that the ubiquitous prodigy was sent sprawling under the table.

All this turnoil was caused by the playful effort of "Old Faithful" who took his hourly blow. A little distance to the south upon a fine elevation stood the splendid old fellow puffing and growling. Several preliminary pulsa-tions rising and subsiding sent the water and steam up to the height of ten and twenty feet. Then came a grand rush and roar, and a mighty column of water, shrouded with steam, shot up into air. As the column grew higher and higher its capping broadened, and falling away from beneath its capitals were spouting arches that seemed touched out in fairy tracery against the blue sky, while the arches sundered to liquid pearls fell downward into the steam that bovered in great volume about the erater. Old Faithful invelves a terrific energy that throws a volume of water six feet in diameter to the height of 175 feet. This immense column of water is forced considerably higher than the Montank block (ten stories), and has its head enveloped in clouds of steam that broaden to an expause equal to the front of that pre-tentious structure. His grand aguaaerial display lasts from five to ten min-

After supper, amid the congenial shades of nightfall, several of the party who had suspiciously light baggage crept up to the crater of "Old Faithful" and threw in their underclothes to be washed, as it had been said that articles wasned, as in find been said that desires thrown into the geyser a short time prior to cruption would be eventually restored to the owner beautifully laundried. It seems that upon this occasion, as in trout fishing, the individuals made ill-timed throws, for, after lingering about, waiting in the scalding steam of several eruptions for the return of their property, they retired to a cold and cheerless couch. In the morning "Old Faithful" cliuched the joke upon them by throwing up the tattered remunits of unmentionables that, in ribboned white purity, night serve for bandages or carpet rags.

AUCTION SALES BY "CANDLE,"

Inter Ocean. Sales by candle is a method of anetion that was at one time common throughout England and Scotland and that still survives in some places north of the Tweed. In a form slightly differing from that which used to be almost universal in this country, it may be witnessed to this day in Bremen, although the municipal authorities of that city have decided to abolish it at the end of the year. Every Friday af-ternoon in a room in the old exchange a judge and his secretary take their seats, attended by a crior and a servant dressed in a flame-colored coat and supplied with a box of tiny candles, each of which is intended to burn for one minute. At a given signal a candle is lighted and the bidding for whatever happens to be on sale begins. At each offer from a would-be purchaser the burning candle is extinguished and a new one is lighted, and the property is only disposed of when a candle burns itself out ere a fresh bid has been aunounced by the crier. This custom dates from mediaval times, and it is said that for five hundred years sales have been held and candles have been burned every Friday without interrup-

THE TRUE TEST OF A GOOD WATCH

Boston Herald. In order to find out what a watch is doing, it should be closely compared every day with a standard chronometer, and its rate of variation noted. The finest watch is not necessarily the one which shows the smallest variation from standard time at the end of some lengthy period, such as a month, or three mouths, or six mouths; it is rather the timekeeper, which shows a slow, but regular variation. Regularity is the test and very few watches will stand it, when rigidly applied from day to day. It is possible, you see, therefore, for a man's watch, set exactly right on January 1, watch, set exactly right on January 1, to be onlythirty seconds out of the way on July 1, and yet it has been afternately forty-five seconds fast and the same amount slow two or three times in the interval. Such a watch of course,

is not to be 'sneczed at,' but its running cannot be called 'fine,' hence it is irregular. The most valuable watch is one which 'regularly gains or loses just so many seconds per day—let us say, for extended the condense of the condense o ample, five or six seconds per week. steadily and surely.

ELECTRICITY AND WATCHES.

Rochester Express. One of the most reculiar things con-nected with the electric light machine is the curious effect it has on time-pieces.
Placed within a few feet of the positive pole of the electric machine, the watch stops absolutely; if exposed immediately to the negative pole of the machine, it will resume its accustomed ticking, and it is said very little bad effect is noticed. Very many watches have been utterly ruined, however, by careless persons going too close to the machines, through ignorance or the neglect of attendants to warn them of their danger. None of the men employed at the works at the lower falls carry any costly watch, and Superintendent Redmond contents himself with a low-priced piece with American works, which is difficult to get out of order, and which, American like, will not admit of defeat from such a small concern as an electric light machine.

# DR. FISHBLATT PROPRIETOR.

Late Lecturer and Professor in one of the medical colleges and editor of the New York Medical and Surgical Journal, committing physician and operative surgeon in the New York Hospital for Chronic Diseases.

WHERE HE CAN BE CONSULTED On

Rheumatic Affections Throat, Lungs, Heart, Stomach, Liver, Kidneys, Bloodfand

NERVOUS DISEASES.

# Chronic Diseases.

Dr. Fishblatt has devoted 20 years to the study and treatment of Chronic Diseases, and his experience in the hospitals in New York, where he has successfully treated over 10,000 cases of Chronic Catarris, Berofulcus Diseases and Diseases and Diseases of the Genito Urinary Ogans, has given him a reputation that is world wide.

### Dr. Fishblatt

Has discovered the greatest cure in the world for weakness of the back and limbs, involuntary discharges, impotency, general debility, nervousness, languor, confusion of ideas, paleness of sight or riddiness, diseases of the thront, nose or sight, affections of the liver, lung-stomach, or bowels,—those terrible disorders arising from solitary practice more fanal to their, victims than the songs of the sirens to the Mariners of Ulysses, blighting their mest radicat hopes or articipations, rendering marriage impossible.

## YOUNG MEN.

Who have become victims of solitary vice, that dreadful and destructive habit hich annually sweeps to an untimely grave thousands of young men of exalted talent and brilliant intellect, who might, if otherwise, entrance listening senates with the thunder of their eloquence, or wake to cestacy the living lyre, may call with full confidence.

# Marriage.

EMarried persons, or young men contemplating marriage, aware of physical weakness (loss of procreation power, impotency.) nervous debility or any other disqualifications specificated. He who places himself under the care of Dr. Fishblatt may religiously conside in his honor as a gentleman, and confidently religion his skill as a physician.

# WEAK NESS

Immediately, cured and finil vigor restored. This affliction—which renders life a burden and marriage impossible—is the penalty paid by the victim of improper indulgence. Young persons are apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands this subject will deay that procreation is lost sooner by those falling into improper habits than by the prudent? Essides being deprived of the pleasures of healthy offspring the most serious and destructive symptoms of both mind, and body arise. The system becomes deranged, the physical and mental functions weakened, loss of procreative power, nervous irritability dyspepsis, palpitation of the heart, indigestion, constitutional debility, wasting of the frame, cough, consumption and death

# A Cure Warranted.

Persons rulned in health by unlearned pro-tenders who keep them trilling month after month, taking poisonous and injurious com-pounds should apply immediately.

## Dr. Fishblatt

Graduated at one of the most eminent Colleges of the United States, has effected some of the most assensishing cures that were ever known; many troubled with ringing in the head and ears when asleep, agreat nervousness, being alarmed at certain sounds, with frequent blushing attended somewhat with deraugement of the mind, were cured immediately.

## Particular Notice.

Dr. F. addresses all those who have injured themselves by improper indulgence and solitary habits, which rains both mind and bodys unfitting them for business, study society, narriage. These are some of the sad, melancholy; effects produced by the early habits of youth, namely: Weakness in the back and limbs; pain in the head, dimness of aight, loss of musical power, palpitation of the heart, dyspepsia, nervous irritability, derangement of the digestive functions, debility consumption, etc.

# Special Notice. Those who reside at a distance desiring the Doctor's services, and cannot call, will receive prompt attention through the mailed by the production approximately applicable of the contract o

convergence attention through the mails by writing, stating symptoms, etc., enclosing stamp, when a printed list of questions will be sent to those who cannot call to fill out. # Chronic Diseases. A Special Study for Years.

Dr. F. B. BREWER. Has made Chronic Diseases of the

Threat, Lungs, Heart, Stomach, Liver, Kidneys, Nerves and Blood.

A special treatment for years. He is not a boastful, ignorant pretender, but an educated physician, seeking to do good, by devoting bitalent and energies to the treatment of a class of malacies that have been with him a long acc patient study. To be able to treat successfully chronic diseases it requires that a physician should be a sound, thorough scholar in the ar of science and medicine generally. He should give his entire time to their study, be thoroug in his investigations and have a long and varies experience. Dr. brewer claims to work no wonders or to do any more than any well educated physician can do, who devotes his whole time to the study and treat ... at of chronic dis cases exclusively, and has had his many years of experience. For years Dr. Brewer has visited the the places he now visits, and has obtained his reputation by being honest in his dealings, candid in committee and reasonable, in his charges. Those who are afflicted are invited to call, investigate and decide for themselves. -It will cost nothing to do so. Address all letters F. B. BREWER, M. D., Lock Box 550, Chicago, Ill. De. F. B. Brewer will be at Janesville. Meers house, Sacurday and Sunday the 5d and 4th of November.

The Result of the Afternoon Races.

The Award of Premiums in the Stock Departments.

Other Fair Notes.

Yesterday was a great day for the Rock county agricultural society, the attendance upon the grounds being equal to that of any previous exhibition of this society. Competent judges estimated the attendance at from eight to ten thousand people. The officers of the society were busy all day providing amusements for the people, and they succeeded admirgbly.

The great events of the day were the races, which were opened by the fancy bicycle riding, in which there were three ontries.-Eddie Chase, of Janesville; Robert Olark, of Beloit; and Frank Ashton, of Rockford. Eddie Chase won first; Frank Ashton, second, and Robert Clark third. The prizes were \$15, \$10, and \$5.

Next came the amateur bicycle race,one fourth of a mile-free to all riders never contested for a who prize. In this race there were only three contestants, Frank Ashton, of Rockford; Herchel Gilmore, and Eddie Chase, of Janesville. The race was won by Herchel Gilmore, Ashton second, and Chuse third. The prizes being \$10, \$8, and \$6.

The next was a single dash of one mile, n which Frank Ashton, Herchel Gilmore, Albert Snell and Eddie Chase were the contestants. The boys started in for keeps, but before the quarter pole was reached some of them were badly left, but they kept the wheels in motion. The race was very closely contested between Ashton and Snell, but the other two riders were left away down the home stretch. Ashton took first, Snell second, Chase third and Gilmore fourth, time 4:021/2. The purse being the same as in the quarter race.

TROTTING. The event of the day was the trotting race in the three minute class, in which there were seven entries, and six to start. The entries were as follows: J. E. Coakly entered Ella G; S. Munning Pulcher; H. S. Woodruff entered Nellie Crawford; W. H. Brand entered Lady C; A. J. Worthington entered Daubine; Mr Dickson entered Amos. Ella S. did not

start. Considerable time was spent in scoring for the first heat, but they were finally sent off with Daubine at the pole, Nellis Crawford next, followed by Amos, Rocket, Tom Pulcher and Lady C on the outside. This heat was easily won by Nellie Crawford, as was the next two. The

following is a summary of the races: Rock county agricultural society, best 3 ın 5 ın harness.

Amos second, and Dauoine third. Mr. Vivian's horse, Tom Pulcher met with several accidents in the race, losing toe weights and breaking check rein, otherwise he would have had a different result. The judges of the race were Messrs. S. J. Goodwin Charles Stoddard and G. A. Houston, all of Beloit. Following this were a couple of horses appearing on the track for a running race, single dash of a mile. The word go was given, and one of the runners, from Genoa, Illinois, did some good running, until it reached the quarter polewhen the rider held up; the run was a

very tame affair. Time, 2:02. "Spanish Jim" and his untamed buffalo, then amused the crowd for half an hour, and the day's sport was concluded with a 100 yard foot race, between C. M. Davis of Geneva, and a Mr. Vicker, of Shirland, Illinois, two professional runners The race was a walk away for Davis.

To-Day.

A cold, easterly wind prevailed this morning, accompanied with a slow, drizzling rain storm, which put a wet blanket on the fair ground, and detained people who had made arrangements to spend the day inspecting the exhibits from doing so. The rain continued until about eleven o'clock, when the officers and judges commenced attending to the unfinished awards of premiums. The at tendance during the forenoon did not amount to much, but the officers announced that in case the weather would permit. the programme would be carried out in the afternoon.

THIS AFTERNOON.

There was a fair attendance at the fair grounds this afternoon, notwithstanding the threatening weather. The schools were dismissed by order of the board of education that the pupils might have an opportunity of attending the exhibition and most of the children, having made up their minds to go, were out in good numbers.

At two o'clock about sixty of the members of W. H. Sargent post, No. 20 G. A. R. turned out in uniform and escorted Governor Rusk to the grounds, and were followed by squads from the Guards and Riffes in fatigue dress.

Owing to the muddy condition of the track all races announced for to-day declared off, consequently was nothing upon race track up to two o'clock, and it was announced that there would probably be

A little trick was uncovered at the fair grounds yesterday afternoon, which, to say the least, is not much to the credit of the Beloit fire department, but as matters tarned out does not make any material difference at this time. It will serve, however, in a possible future, should the Beloit company again appear in publice The case in point is this: Towards the close of the fun yesterday

Davis, a professional runner from Geneva Lake, and a Mr. Vickers, another professional from Shirland. Vickers was a favorite among the Beloit people on the grounds, although he was backed by a few Janesville sports who were acquainted with him.
